American Black

Quarry: **USA**

This domestic material has a stunning effect when used in any application, whether it be a memorial or a plaza of cobblestone pavers. The dark material is brought to life with its misty effect adding an unparalleled beauty to any project. Whether its finish is flamed, polished or somewhere in between the subtle character makes all the difference!

Aurora

Quarry: **India**

With its unmistakable personality this stone stands out as one of the most vivacious colours we supply. A melting pot of black and orange tones swirling together—this material has a personality of its own, making each piece unique. In any application this stone displays the unparalleled beauty of nature.

Bahama Blue

Quarry: **India**

Our darkest blue material is a beautiful material to work with. Its rich tones and swirled grain are used to create a stand-alone masterpiece or collaborate with the plainer granites to display its distinctive colour and variegated hues of blue.

Balmoral

Quarry: **Finland**

This beautiful granite is world renowned for its exceptional durability. Its usage is varied from cemetery memorials to building exteriors and pavers.

Barre Grey

Quarry: **Vermont**

Our nicest grey available is a consistent fine grain granite quarried in a town named after this remarkable stone. A great moisture resistant granite, this material has been used in many applications from creating iconic buildings from the 1800's to a grey granite of choice for cemetery memorials.

Bethel White

Quarry: **USA**

Being one of the few white granites available around the globe makes this colour very special. A lot of white stone is porous and softer in density but this white granite is very durable and holds a brilliant polish. Its versatility makes it the white granite of choice.

Black Galaxy

Quarry: **India**

Pure black with gold flecks, this granite has incredible sparkle that catches the slightest glimmer of light.

Black Pearl

Quarry: **India**

Pure black with gold flecks, this granite has incredible sparkle that catches the slightest glimmer of light.

Blue Pearl

Quarry: **Norway**

Characterized by its remarkable pearls, this stunning blue granite is one of the most unmistakable granites worldwide. When polished the “pearls” in the grain stand out beautifully, making the stone appear to shimmer from any angle.

Brits / Impala

Quarry: **South Africa**

This dark grey granite quarried in South Africa continues to be a very popular material of choice. Its medium-to- fine grain is directional creating a very consistent appearance even in large sizes.

Cambrian Black

Quarry: **Quebec, Canada**

This black granite can be found in many iconic memorials, buildings and streetscapes across North America. Its medium grain gives more character and depth than typical fine grain black granites and there are no chemicals or additives used to darken the stone. When polished its rich tone can be enjoyed for generations to come.

Cat's Eye (Brown)

Quarry: **India**

Its name, derived from the distinctive deposits in the stone, accurately describes the appearance of this granite. Available in brown, it has a beautiful grain that is very consistent.

Granite Colours

C-I

Coffee Brown

Quarry: **India**

This is the darkest brown granite that we supply. The deep rich tones exemplified in this granite are true to its name and comparable to that of coffee. When polished, this large grain granite makes beautiful cemetery memorials and outstanding landmarks.

Dakota Mahogany

Quarry: **South Dakota**

This domestic granite is an exceptional example of the beauty that can be found within North America. Its deep consistent grain gives an accurate rendition of a mahogany in stone. The colour variations that make up this granite create a beautiful blend.

Emerald Pearl

Quarry: **Norway**

Elegant is the perfect word to describe this beautiful green granite. Its dark tones give this granite an unmistakably rich character, brought to life by its reflective silver-blue pearls, similar to that of Blue Pearl. This granite is extremely durable and will display the beauty of nature for centuries to come.

Fire Flame

Quarry: **India**

The name of this red granite didn't come from nowhere. The character of this granite is very unique, making no two pieces the same. The grain of the granite and variegated hues of red give the effect of flames dancing across the stone's surface.

Himalayan Blue

Quarry: **India**

This granite features a beautiful mix of grey and blue with accents of orange and brown.

Imperial Grey

Quarry: **China**

This is one of our most popular grey granites. Its consistent grain and affordable price make it a material of choice for a variety of uses. Whether the finish is flamed, sawn, polished or anything in between, this subtle colour is consistent.

Granite Colours

Imperial Impala

Quarry: **China**

A great choice for any application needing a dark grey granite. Its consistent colour has been used to create beautiful memorials and outstanding architectural projects.

Indian Mahogany

Quarry: **India**

Deep brown in colour with a consistent grain, this granite a hard and durable stone ideal for both indoor and outdoor use.

Indian Red

Quarry: **India**

This unmistakable red granite is the colour of choice for any application requiring a durable red. Its distinct colour creates a stunning masterpiece wherever it is used, whether it be a cemetery memorial, a civic landmark or an architectural project. If you are looking to use a red granite, this material is available in large grain or fine grain, ensuring you'll find exactly what you are looking for.

Jet Black

Quarry: **India**

By far our most popular black granite, this material is used in a variety of applications. This dark black granite is quarried and handled with precise care. There are no additives used in the manufacturing or polishing of this granite—the rich black colour is truly natural.

Laurentian Green

Quarry: **Quebec, Canada**

This green granite is uniquely distinguished by its pearl-like grain structure. It is difficult to find a deep green granite that does not fade or oxidize with the elements; however, Laurentian Green has a reputation for its timeless beauty and a permanent dark green colour.

Laurentian Pink

Quarry: **Quebec**

This light pink colour is a very popular granite. Often used for cemetery memorials, this material gives a very delicate look and an almost velvet appearance. Its soft pink colour is brought to life with a speckled fine grain, which is beautifully consistent.

Mountain Rose

Quarry: **Ontario**

This is a beautiful colour and used many different ways. Its medium-to-fine structure of granite creates a notable evenness to the material. Used primarily for cemetery memorials in the past, it has just begun getting attention for material that can be used in architectural applications.

Multi-colour

Quarry: **India**

The name says it all. Multi-colour granite is a beautiful blend of a variety of colours. Create unique and eye-catching creations with this special stone.

Paradiso

Quarry: **India**

This material is one-of-a-kind. With its variegated grain and distinctive colour this granite always gets attention when used in any application. Its mixture of purples, pinks, greys and black create a truly remarkable colour.

Premium Black

Quarry: **India**

Quarried with precision and handpicked to ensure premium quality, this is our best black granite. Its fine grain makes it superb for laser etchings and has created stunning pieces of art.

Red Deer Mahogany

Quarry: **Ontario**

This medium grain granite consists mainly of brown and grey. It is an attractive mahogany granite that has been used for the cemetery memorial industry and more recently for architectural requirements.

Regal Black

Quarry: **India**

Speckled black makes this granite a great option for those who prefer a dark stone, but wish to avoid the starkness of Jet Black.

Granite Colours

S

Silver Bronze

Quarry: **India**

Dark silvery grey with unique reflectors in the stone when polished, Silve Bronze granite shimmers in the sun.

St. Henry Black

Quarry: **Quebec, Canada**

This is a large grain Black granite, often used for architectural projects.

Stanstead

Quarry: **Quebec, Canada**

Consistent light grey, this granite has excellent durability.
